## Schedule

### EQUIPMENT:

*Equipment and systems covered by this certificate are as follows:*

The type GHG 512....R.... plug-and-socket device serves to connect portable electrical apparatus or to make connections in potentially explosive atmospheres.

The following variant is permissible: transformer plugs (isolating transformer, class of protection II). Auxiliary or control contacts in wall-mounting socket outlets may optionally be used.

Staggered grooves guarantee that only plugs or socket outlets of identical rated voltage will be used together. Mechanical marking ensures that the plugs of the type GHG 532....V.... plug-and-socket device (Certificate of Conformity PTB Nr. Ex-85.B.1066) can be used for the wall-mounting socket outlet and the coupling.

Rated voltage .....	up to	750 V
